

sitech systems

future proofing learning

To our valued educators and partners,

For many years, Sitech Systems NZ Ltd has been doing what's best for educators and their students. Putting your interests first has helped us become a leading provider of interactive learning solutions for primary, secondary and higher education.

Now Sitech would like to invite you to our second Sitech National Champions Schools Conference.

When?

Saturday 29th March: Champion Schools only (8.30-5.00)

Sunday 30th March: Open Day for Principals and Teachers from any school interested in interactive technologies (8.30-5.00)

Where?

Owhata School, Brent Rd, Rotorua

What?

- Keynote speaker: Peter Kent

Peter Kent is back by popular demand! Now managing the professional learning program for teaching and learning technologies within the Australian Capital Territory and with his latest book "Quality Teaching with Interactive Whiteboards" about to be published, Peter is well placed to share his ideas and thoughts on integrating IWBs into classroom teaching. Originally a secondary physics teacher, as Deputy Principal of Richardson Primary School he was responsible for leading the team of teachers who pioneered the effective use of IWBs. In 2003 the school received an Award of Excellence in Education from the Australian College of Educators and in 2005 they received an Australian National Award for Quality Schooling – Outstanding School Improvement.

- Keynote students talk about their learning journey
- 40+ workshops on embedding your interactive whiteboard and clicker technologies into the classroom
- Display of the latest products and information on the interactive education sector.

How much?

- Free of charge but with a maximum of five per school (NB: limit on numbers does not apply to the event on Saturday for Champion Schools only)

Use the attached RSVP to book your place now. Maximum 300 places.

Interwrite Learning

Interwrite Learning is a premier global provider of interactive learning solutions for primary, secondary and higher education markets. Interactive solutions, including the Interwrite Board, Pad and Panel all come with Interwrite Workspace, a next generation educational software application for creating, teaching and assessing student performance using digital content. Interwrite assessment solutions include Interwrite Cricket and PRS clickers, members of a powerful student response system that combines interaction and assessment to enhance classroom productivity and improve student results. Interwrite Learning has a rich 32-year history of delivering interactive solutions that are changing how the world learns.

Breathe Technology

Training and Development for Teachers

In almost every area of our lives, technology is furthering our knowledge and supporting us creatively. Educators and learners need to have access to technology to explore, to discover, to create and to connect.

Breathe Technology is committed to supporting educators and learners to successfully embed technology into teaching and learning environments both within and beyond the classroom. We provide in-house training, regional training, conference workshops and consultancy. For more information visit: <http://www.breathetechnology.co.nz>

EXPLORE DIGITAL STORYTELLING WITH UMAJIN CREATIVE

Digital Story Board Software

The process of digital communication using rich media couldn't be simpler or more fun than with UMAJIN CREATIVE software.

Umajin Creative is the award winning creativity software aimed at children and young adults. Developed by Unlimited Realities in New Zealand, Umajin Creative enables users to combine a range of different media - including text, drawings, digital photography, sound, video, 3D models, special FX and interactivity - into a digital story document. Umajin Creative has been developed to support both learning and teaching by facilitating both process and presentation. It immerses students in visual, oral and written literacy as it teaches and encourages thinking, planning, creativity and production. For more information on Umajin Creative visit <http://www.umajin.com/>.
