

Interwrite Interactive Whiteboard Training Programme

Sitech Systems are committed to ensuring that you make the most of your Interwrite Board and/or Pad.

- Purchase any Interwrite product and you will receive two vouchers per product worth \$75+GST each. These will entitle one member of your staff to attend the two stage course to learn how to make the most of your IWB in your classroom (in addition to technical training from your Sitech representative).

The training is provided by Breathe Technology, a specialist provider of educational training to teachers by teachers. The training is delivered regionally or in house (some additional costs may apply).

Getting started

Introduction to your interactive whiteboard: stage 1, 3 hours (offered regionally and in house)

At this introduction to the interactive white board, our trainers will demonstrate the full interactive potential of your IWB and how to use it to improve teaching and learning in the classroom. By illustrating the methodology with examples taken straight from the classroom, you will leave feeling ready to try out and develop all those ideas learnt throughout the session. In addition, you will be encouraged to stay in touch with your facilitator and other participants via our breathe.elearning zone.

Suitable for: All those who have just had an interactive white board installed or purchased an interactive Bluetooth pad.

“Tonnes of fabulous ideas – can’t wait to get stuck in”
Teacher, Greerton Village School

Introduction to your interactive whiteboard: stage 2, 3 hours (offered regionally and in house)

We begin by reviewing the activities learnt in Stage 1, together with discussing any specific issues you may have encountered since attending the Stage 1 training. We then move on to more technically advanced interactive activities including how to ensure your use of the interactive whiteboard engages every student’s learning style. We consider how to embed your IWB into an inquiry or a project such that it becomes the basis of your student’s eportfolios.

Suitable for: All those who attended the Stage 1 at least six weeks previously or are experienced users of the interactive white board or interactive Bluetooth pad.

Thanks for a great afternoon. I learnt heaps - now just to put it in practise!!!" Andrea Niven, Gisborne Intermediate

To continue your learning journey, access the following:

Making the most of your IWB for Literacy, 3 hours (offered regionally and in house)

Heaps of ideas for embedding the IWB into your literacy teaching: brainstorming, planning and mindmapping ideas; developing a digital story; ‘feedback’ from group or class; incorporating oral literacies; grammar and sentence level work; spelling; handwriting and more!! Our training is for all brands of interactive whiteboards so all your learning requirements will be catered for.

Suitable for: experienced users of any brand of IWB with an interest in literacy from ECE to Yr 8.

**Making the most of your IWB for Numeracy (offered regionally and in house)
(3 hours)**

Research states that the biggest gains in mathematics are produced for students who have access to stimulating technologies in the hands of skilled teachers. This workshop will enable you to up skill in your use of the IWB with the maths curriculum. We will demonstrate a number of ways of embedding IWB activities into whole class and task board time. We will investigate the online resources available to the interactive whiteboard user, creating our own resources and adapting those already out there. Feel free to share your resources as we help one another to design meaningful content.

Suitable for: experienced users of any brand of IWB with an interest in numeracy across all levels, primary and secondary.

Embedding your IWB in the Primary Day, 6 hours (in house only)

This workshop is ideal for teacher -only days or for groups of schools looking to take their IWBs to the next level. This session mirrors the typical day in your classroom. We run you through daily routines, reading, writing, maths, your inquiry, integrated studies and management and highlight opportunities for use of the IWB. We examine these opportunities and ask ourselves whether the IWB is being used for quality teaching and learning, not just as a gimmick. The session concludes with time for team planning.

Embedding your IWB in Curriculum Areas, 3 hours (in house only)

Apply interactive whiteboard technologies to your own subject area or interest. We offer training sessions on the following:

- IWBs for Maths
- IWBs for English
- IWBs for Languages
- IWBs for Social Sciences
- IWBs for Sciences
